

DUO hand-held mixers: Xo 33 duo - Xo 55 duo

Outstanding design - Exceptional performance

- Premium-class mixing; increase in the processing quality of the mixed material
- Optimum performance and reliability
- Perfect mixtures - less strain on the user
- Perfect ergonomics - work in an upright position
- Attractive design
- HEXAFIX®-coupling - easy exchange without using tools

Xo duo hand-held mixers

because it's faster & quicker

Outstanding in design -
Exceptional in performance

- Counter-rotating mixing tools: No counter-torque acting on the user; made for light work with less physical effort; nearly twice as fast as a one-spindle mixer
- Forced action mixing effect: For mixing all types of materials, including viscous and heavy materials, quickly and thoroughly
- For soft and liquid materials: Possibility to convert the mixing effect by swapping the position of the two paddles against each other; for putty, fillers, gypsum-based materials
- Electronic speed control: Infinitely variable for smooth power transmission
